

August 4, 2014
ICD-10 Update

According to information from WPS Medicare and also the American Academy of Professional Coders (AAPC) on Friday August 1, 2014 - October 1, 2015 has been set as the new compliance date for health care providers, health plans and health care clearinghouses to transition to ICD-10. CMS states that "This deadline allows providers, insurance companies, and others in the health care industry time to ramp up their operations to ensure their systems and business processes are ready to go on October 1, 2015."

AAPC will follow up with additional information on the steps organizations should now take to prepare for the ICD-10 implementation.

As information is released, Regional Pathology Services will keep everyone updated with timelines and additional information.
